

QUICK Guide

Victorfone™

1. Insert a SIM card on the back of the Victorfone.

Mount the GSM antenna on the 3G terminal and WI-FI antenna on WI-FI connector. Check again if the WiFi and GSM antennas are attached to the correct sides.

Connect the power and turn ON the Victorfone from the ON/OFF button, placed on the back.

2. On your phone, connect to the WiFi network called 00Victorfonexxxxxx, the password is 00000000, then press OK. If your smartphone comes with the message that there is no internet signal just press OK.

3. Then open your Internet browser on your smartphone. In the address bar, enter this IP address:

192.168.1.10

4. In the field “Pin code for the SIM card”, fill in with your PIN. This is the PIN you have been provided with your SIM card by your service provider.

5. In both fields “Admin Password” and “Repeat Admin Password” write “1”, then press “save and logon” - confirm by pressing OK.

6. Then turn off your Victorfone and wait 30 seconds, after that switch it back on.

Connect your Victorfone via Wi-Fi again, if this doesn't happen automatically, see Section 2 for help.

7. Go to your phone's store, either called "App store" - "Google Play" or "Windows Store" depending on the phone operation system.
8. Here download the free app "Zoiper". You must accept that Zoiper get access to your contacts and microphone on your smart-phone.
9. Links to the app is also available on our web page:

<http://victorfone.com/downloads/>

ZOIPER APP SETUP

10. Go to "Config" or "Settings" depending on the phone App.
11. Press on "Accounts", then press "+".
12. Press "Yes" and select "Manual configuration". Choose here "SIP".
13. Press "Account name" and type "1". Press "Host" or "Domain" depending on your phone and here type "192.168.1.10", then press "OK".
14. Press the "Username" and type "1". Press "Password" and type "1".
15. Then press on register.
16. Press on Config, then Audio and afterwards you have to turn off "Echo cancellation" and "Automatic Gain Control Filter".
17. Now the "Zoiper" App should say "ready" at the top of the screen and you are ready to make calls.
18. Enter the number you want to call and press "Call". Zoiper will dial via Victorfone.

Enjoy!
